o) (4) Spring Nut
1/4"-20UNC, 0.84" Reach
Part #028010

p) (4) Washer, Nylon
0.318" x 1" x 0.04"
Part #054061

q) (6) Washer, Nylon
0.203" x 0.885" x .062"
Part #054080

r) (2) Washer, Nylon
0.281" x 1" x 0.11"
Part #054084

s) (1) Mount Clip
Driver Side
Part #769308

t) (1) Mount Clip
Passenger Side
Part #769309

u) (2) Wedge Plate
Universal
Part #770747

INSTALLATION *(For ease of installation it is suggested that the wheel be removed)*
Note: Before you install your Mud Flap Set, see the diagram and parts list for all necessary parts.

1-1 Remove factory hardware as shown.

2-1 Loosely install bracket and hardware as shown.

3-1 Install spring nut on bracket as shown.

4-1 Ensure the small bracket is aligned so the edge of the top of the bracket is resting snugly against the sheet metal behind the wheel lip. Begin installing the small bracket to large bracket as shown in step 4-2.

4-2 Install small bracket to large bracket as shown. Be sure to insert spacer (f) as shown before securing the bracket as shown in step 4-3.

4-3 Secure hardware installed in step 4-2 as shown.

5-1 Install spring nut over plastic guard, aligning it with the hole shown in the diagram.

6-1 Install spring nut over factory hole on the sheet metal as shown.

7-1 Loosely install mount clip on rubber as shown.

8-1 Loosely install hardware as shown. Ensure wedge plate is between rubber and fender lip.

9-1 Slide mount clips behind fender lip as shown.

10-1 Loosely install hardware as shown.

11-1 Loosely install hardware as shown as shown.

12-1 Loosely install hardware as shown as shown.

12-2 Loosely secure the hardware installed in step 12-1 as shown.

13-1 Use a level and visually determine your mud flap is straight. Gently tighten all fasteners.
