Security Products

Installation Instructions for Model LD2025 Console Safe

The Lock'er Down Model LD2025 fits the 2009 to 2014 Ford F150 with console and shifter on steering column

- It is a good idea to set the combination before you install the safe, and do it with the door open.
- Clear the contents out of the compartment.
- The safe comes assembled, and you must disassemble by removing the 8 / 32 acorn nuts using a 5/16" wrench. (8 MM will also work)
- Place the top assembly into the console opening as shown in Fig 1.
- Place the front bracket over the two studs in the front of the safe as in figure 2 and run up the acorn nuts. Squeeze the top and bracket together and tighten the nuts as in fig 3.
- Place the rear bracket over the studs in the back as in fig 4, squeeze and tighten like the front bracket.
- Enjoy your purchase.
