

# RUST & CORROSION PROTECTANT (RCP)

**RCP** is a protective coating that guards against stains, streaks, oxidation, corrosion and pitting. RCP is UV stable and will never peel, chip, crack, flake or yellow. A single coat can last for several years, and it works on a variety of materials.

**Shields surfaces from stains, streaks, oxidation, corrosion, and pitting.**

**A single coat lasts for years without the need for frequent reapplication.**

**Won't peel, chip, crack, flake, or yellow, even under harsh sunlight.**

**Works effectively on a wide variety of materials.**

**RUST PROTECTANT  
& ANTI-FOULING**

Behind Scorpion is an experienced team of chemical engineers and research scientists devoted to making the impossible; POSSIBLE.

Our advanced coatings meet the demanding needs of military contractors, heavy industry and homeowners alike with formulations that push the envelope in creating sustainable, affordable and easy to use products.
