

UNO PROTECT

ONE-STEP POLISH & SEALANT

UNO PROTECT
250ml · 1000ml
9.PROTECT250 · 9.PROTECT

CORRECT, POLISH & PROTECT IN ONE STEP

Pairs best with the D-A Fine, D-A Ultra-Fine, or D-A Intermediate foam pad depending on defect level — removes moderate-to-light defects and leaves a protected, high-gloss finish in a single application.

KEY FEATURES

- ✓ Rich blend of polymer, silicone, and carnauba wax polishes to a high-gloss finish
- ✓ Removes moderate-to-light defects in one step — no separate compounding stage needed
- ✓ Protective layer lasts up to 90 days
- ✓ Compatible with random-orbital, gear-driven, and rotary polishers

HOW THIS COMPARES

- ✓ **Built for volume without cutting corners.**
Express detail services, high-volume shops, dealerships, and auctions need rapid results with minimal effort; UNO Protect is formulated specifically for that pace without skipping the finish quality.
- ✓ **Adjustable cut, one bottle.**
Cutting and finishing power adjust with pad and compound combination, so one bottle covers a wider range of defect levels instead of requiring a separate product for each.
- ✓ **One step, full finish.**
Correction, polish, and protection come out of a single application — no separate sealant step required.
- ✓ **Built as one system, not a guess.**
Polish and pad are engineered together in-house by RUPES for the BigFoot platform, so the final finish is matched from the start.
